Albert Einstein

Scientist

einstein@example.com Princeton, NJ AlbertEinstein example example

Professional Summary

- A German-born theoretical physicist, widely ranked among the greatest and most influential scientists of all time

Education

PhD, **University of Zurich**, Physics — Zurich, Switzerland
1900 – 1905
- Description 1.
- Description 2.

Federal teaching diploma, **Eidgenössische Technische Hochschule**, Physics — Zurich, Switzerland
1896 – 1900
- Description 1.
- Description 2.

Experience

Institute for Advanced Study, Princeton University, Professor of Theoretical Physics — Princeton University, NJ
1933 – 1955
22 years

Teaching at Palmer Physical Laboratory (now 302 Frist Campus Center). While not a professor at Princeton, I associated with the physics professors and continued to give lectures on campus.
- Relativity
- Description 2.

California Institute of Technology, Visiting Professor — Pasadena, California, US
1933 – 1933
1 year
- Description 1.
- Description 2.

Kaiser Wilhelm Institute for Physics, Director — Berlin, Germany
1917 – 1933
16 years

Karl-Ferdinand University, Professor of Theoretical Physics — Prague, Czechoslovakia
1911 – 1917
6 years

University of Zurich, Associate Professor of Theoretical Physics — Zurich, Switzerland
1909 – 1911
2 years

Volunteer

People's Climate March, Lead Organizer — Zurich, Switzerland
Apr 2014 – July 2015

Lead organizer for the New York City branch of the People's Climate March, the largest climate march in history.
- Awarded 'Climate Hero' award by Greenpeace for my efforts organizing the march.
- Men of the year 2014 by Time magazine

Awards

Nobel Prize in Physics — Nov 1921

The Nobel Prizes are five separate prizes that, according to Alfred Nobel's will of 1895, are awarded to 'those who, during the preceding year, have conferred the greatest benefit to humankind.'

Royal Swedish Academy of Sciences

Max Planck Medal 2029
Awarded for outstanding scientific achievement
German Physical Society

Publications

Zur Elektrodynamik bewegter Körper June 1905
It concerned an interpretation of the Michelson–Morley experiment and the properties of light and time. Special relativity incorporates the principle that the speed of light is the same for all inertial observers regardless of the state of motion of the source.
Albert Einstein
Annalen der Physik
Full text

Über einen die Erzeugung und Verwandlung des Lichtes betreffenden heuristischen Gesichtspunkt Mar 1905
In the second paper, he applied the quantum theory to light to explain the photoelectric effect. In particular, he used the idea of light quanta (photons) to explain experimental results, but stressed the importance of the experimental results. The importance of his work on the photoelectric effect earned him the Nobel Prize in Physics in 1921.
Albert Einstein
Annalen der Physik
Full text

Die Grundlage der allgemeinen Relativitätstheorie Mar 1916
The publication of the theory of general relativity made him internationally famous. He was professor of physics at the universities of Zurich (1909–1911) and Prague (1911–1912), before he returned to ETH Zurich (1912–1914).

Skills

Physics

Languages

German
Native speaker

English
Fluent

Interests

Physics

Certificates

Machine Learning Jan 2018

Quantum Computing Jan 2018

Quantum Information Jan 2018

Projects

Quantum Computing Jan 2018 – Jan 2018
Quantum computing is the use of quantum-mechanical phenomena such as superposition and entanglement to perform computation. Computers that perform quantum computations are known as quantum computers.

- Quantum Teleportation
- Quantum Cryptography
